CABLE ID PRINTER Mk2600

Printing Material

●Mk2600   ●Mk1500

Tubes

Direct printing on commercially available Soft PVC tubes (inner diameter: 2.5 to 6.5 mm) is possible. Heat Shrinkable tubes Φ3.0 to 6.4mm, Flat tube type materials are also acceptable.*

* Before using a tube, be sure to check whether characters can be printed on it.
* The Mk1500 accepts with 2.5 mm to 5.2 mm diameter tubes.

High-quality crisp printing ensures distinct legibility in small characters with resistant marking.

Plastic Plate Strips

With the required Plate Attachment, it is possible to print on thin plastic plate strip material. * Mk2600 only
The length can be set from 2 to 150mm.
With fine printing pitch control, marking the plate strip material is easy and legibility is high.

Label Tape

A wide variety of label tapes are supplied in the form of handy and convenient cassettes. Lable tape comes is widths of 6mm, 9mm and 12mm, and colors of white or yellow.

### Various print template patterns

Vertical/Horizontal Character *1

Vertical/Vertical Character
Horizontal/Horizontal Character

No cutting lines between column of characters

3line/segment *2

All line centering, Vertical/Horizontal Character

Framing

EMERGENCY STOP   (Emergency Stop)

Combined column (Upper Lower Segment) with horizontal characters

*1 Only Mk2600 allows Vertical/Horizontal Character printing.
*2 Only 1.3mm (Full width) alfanumeric characters Mk2600 only.

Reliable marking printer which fits right at the cable identification work site.

● Mk2600   ● Mk1500

Ease of Use

Easy to type Notebook PC like QWERTY key Board ensures both comfort and efficiency.

Setting the material is very easy with included Tube Attachment. Simple operation is fundamental factor for productivity.
Light weight and handy design allows you to take the machine to the job site easily.

Printing Material

Wrap Around Tape

Transparent laminate film covers the printed surface and securely wraps around the cable.

Wrap the printed area with transparent adhesive laminate around the cable.
Hard Case

Custom Hard Case to store and protect your Cable ID Printer.

Various Features

Back Lit LCD display

With a high contrast, distinctive back lit display, operating the machine is comfortable even in a dimly lit work environment. It guide's you through the menu to the necessary settings such as material and the size of the characters easily.
Print Length Adjustment

The print length can be adjusted in steps of 0.01%. * Mk2600 only
Precise pitch control is useful in creating an indication plate for terminal blocks.

Memory and folders

Internal memory can store as much as approximately 60,000 characters.*
Up to 10 folders can be created.*
Every Folder can save up to 99 files.*
*Mk2600

Automatic full /half cut with depth control

Full /half Automatic cut is selectable. Depth control, cutting speed control is available from control panel.
A convenient feature to assist on large projects.

Half cuts can be manually separated easily.

Consecutive/Serial Printing

Multiple reiteration of same character lines and group printing; different set of a certain character lines, are available in easy compiling function.
Sequential numbering is available in 4 digits.

Serial Printing (4 digit)

Consecutive Printing

Standard PC Connectivity

The printer can be linked with PC through
USB interface PC Connection Kit

Data can be sent from a PC to the printer*, allowing you to print large quantities of data with ease. In addition to the existing original files, the printer can read CSV-format files. This feature greatly reduces the time required for field work.
* Mk2600 only
