

A DYNAMIC AND USER-FRIENDLY DOCUMENT SCANNING SOLUTION

Help boost office efficiency and productivity with the user-friendly Canon imageFORMULA DR-C230 office document scanner. With its powerful document capture capabilities and dynamic ability to scan various document types like passports, this scanner can easily convert paper-based documents into high-quality digital files for almost any office environment.

WIDE RANGE OF USES

Sectors such as government, financial/banking, insurance, accommodation services, transportation, rental and leasing services, legal services, and more can benefit from the dynamic scanning the DR-C230 scanner offers. It can be used to integrate information into digital workflows for process automation and information distribution while helping to increase collaboration among individuals or workgroups. DR-C230 scanner can assist with efficient records management and help reduce paperwork in paper-intensive environments.

DYNAMIC, RELIABLE, FLEXIBLE FEEDING

The DR-C230 scanner can scan at up to 30 ppm, both sides of an item in a single pass, in color or black-and-white.* Capable of holding up to 60 sheets, it can handle a variety of document types including thick, thin, long, or oversized documents; plastic or embossed cards; and even passports for greater versatility and flexibility. In addition, the DR-C230 comes equipped with double-feed release functions and one-touch release button to allow scanning to resume when double-feed is detected for a seamless and more efficient scanning experience.

USER-FRIENDLY

Designed with the user in mind, the DR-C230 scanner's easy-to-use operation panel contains accessible controls to start scanning operations, preconfigure job tasks, and more with one-touch job buttons. It can scan different-size documents in mixed batches to help eliminate the time wasted presorting document types. Bundled with both Canon CaptureOnTouch v4 and Canon CapturePerfect software, users can preconfigure scan tasks and choose from a wide selection of file distribution options. With CaptureOnTouch software, scanned documents can be sent directly to third-party cloud applications** such as Microsoft® SharePoint®, Dropbox, SugarSync, Google Drive™, and OneDrive. This scanner is also bundled with ISIS® and TWAIN drivers for easy integration with third-party software.

HIGH-QUALITY IMAGING

To help enhance and maintain image quality of documents, the DR-C230 scanner contains various features such as Auto Resolution setting, useful for scanning mixed batches of documents and photographs by automatically adjusting the output resolution to improve quality and reduce image file size. Other image processing features include Character Emphasis and Text Enhancement that can help to improve text legibility on hard-to-read documents to help ensure accurate document capture.

ENVIRONMENT IN MIND

The DR-C230 scanner meets ENERGY STAR® guidelines for energy efficiency and complies with both the EU RoHS and WEEE directives for the reduction of hazardous substances and waste products.▪

CUSTOMER CARE

For investment protection, eCarePAK options are available to extend service beyond the initial, three-year advanced exchange limited warranty period. This helps save on costs associated with post-purchasing maintenance and helps maximize uptime throughout the product life.
