# Print Setup Guide

HP | macOS

---

Follow the steps below to add the HP Copier to your Mac. No driver download is required, macOS connects automatically using AirPrint.

---

## Step 1: Add the Printer in Settings

1. Open **System Settings** and go to **Printers & Scanners**.
  2. Click **Add Printer, Scanner or Fax...**
  3. Click the **IP** tab (indicated by a globe icon) at the top of the window.
  4. In the **Address** field, enter the IP address of the copier  
*Note: To find the IP address: On the copier's home screen, tap the 'i' icon in the top-right corner, then select 'Ethernet' or 'Wireless'. Look for the IPv4 Address.*
  5. Ensure the **Protocol** is set to **AirPrint**, then click **Add**.
  6. To rename the printer, click on it in your Printers & Scanners list and go to **Options & Supplies**.
